Attention:

Members of The Malaysian Water Association / Water Organisations

Dear Colleagues

**MWA-ORGANISED TECHNICAL TOUR TO IWA WORLD WATER CONGRESS & EXHIBITION 2018, TOKYO, JAPAN
15 TO 23 SEPTEMBER 2018
- INVITATION TO PARTICIPATE**

The Malaysian Water Association (MWA) will be organising a Technical Tour to IWA World Water Congress & Exhibition in Tokyo, Japan from 15 to 23 September 2018. The event is organised by International Water Association (IWA) and its partners - Tokyo Metropolitan Government, Japan Sewerage Works Association, Japan Water Works Association and Japan Society on Water Environment.

The IWA World Water Congress and Exhibition (WWC&E) is the global event for water professionals covering the full water cycle. As the Congress rotates through cities and countries each event has an extra emphasis on issues of specific interest to the region. The Congress is held in a different city around the world every two years, and had previously graced the cities of Brisbane 2016, Lisbon 2014, Busan 2012, Montréal 2010, Vienna 2008, Beijing 2006, Marrakech 2004, Melbourne 2002, Berlin 2001 and Paris 2000.

The World Water Congress and Exhibition connects over 5,000 of the world's leading water professionals from more than a hundred countries. You will be meeting the foremost experts, specialists and thought leaders from industry, government, utilities, regulators and research organisations, the entire community leading the debate and finding the solutions that will deliver the water wise world of the future.

The Global Event Shaping our Water Future

The Congress presents the collective knowledge and know-how through leading keynote speakers, open discussions, presentations, poster sessions, showcasing latest technologies, dialogues on emerging issues, leadership forums and workshops.

The Themes of the Congress cover the followings:

- Utilities of the Future
 - Water Utility Management, Wastewater, Drinking Water & Potable Reuse
- Cities of the Future
 - Urban Water Systems, Communities, Integrated Planning & the Enabling Environment
- Basins of the Future
 - Large Scale Water Management
