You are invited to visit **GEOSMART ASIA 2016** conference and exhibition. The conference will bring together geospatial technology users, solution providers, policy makers, research and academia to showcase technology use and best practices through visionary addresses, presentations, discussions, networking, and exhibition.

Join the conference-cum-exhibition to witness and experience exciting use of geospatial technologies across many domains driving your nation. Turn overleaf to check out the programme schedule.

The invitation is valid for all sessions during the conference and exhibition. It includes tea/ coffee during breaks. It does not include meals during the conference and delegate kit

**Valid for government, research & academia, and end users*
